Interactive Essential Digital Skills (iEDS)

Do you work with individuals who are:

- Aged 19 or over?
- Interested in developing their digital skills?
- Looking for extra support and have basic skills below Level 1?

If so, then why not refer them to this brand new course?

The iEDS course provides focus and direction for our learners, enabling them to gain the knowledge needed to complete the EDSQ qualifications or improve their digital skills alongside other commitments. Each course is interactive and is available at entry level and Level 1.

The five key topics for each course are part of the EDSQ qualification standards and include:

1. How to use devices and handle information.
2. Creating and editing information.
3. Sending and receiving communications.
4. E-commerce and online shopping.
5. Being safe and responsible online.

The iEDS course comes with many benefits including:

- Understanding the key digital tools that are used in the workplace.
- Learning on any electronic device for flexible learning.
- Building individual's confidence in key digital skills.
- Opportunities for individuals to develop and practice their skills online, remotely and independently.
- High levels of interactivity and engagement.
- Guidance towards reaching EDSQ qualifications.

Each course is six weeks long and can take place in a small and supportive environment to suit your referral's learning needs.
